

WHEN WORDS ARE NOT ENOUGH

Dealing with situations of loss and crisis can be one of the most challenging experiences of our work. We often struggle to determine what to do and say that would be most helpful.

Dr Bill Webster comes to us for two days to help enable participants to understand and facilitate grief support encountered by Front Line Workers.

February 15 & 16, 2012
9am – 4pm

\$160 per person for two days. Lunch included.
